

# WE HELP COMPANIES WITH DIGITAL TRANSFORMATION

Identifying opportunities and creating custom software solutions and design.  
With over 10 years of experience in top projects.

# WHO WE ARE

eMan is a leading Czech software supplier. We specialize in mobile and web application development and related services such as UI/UX design, support and service, outsourcing of IT specialists, and consulting.

We focus primarily on clients from the automotive, energy, banking, insurance, manufacturing, and services industries. The quality of our solutions has been affirmed by dozens of awards. eMan operates in the Czech Republic and the United States and, since 2020, our shares have been freely traded on the PX Start Market on the Prague Stock Exchange.

Offices in Czech Republic and USA

We hold an ISO 9001 Quality Systems Management, an ISO/IEC 27001 information security certificate, and an ISO 14001 certificate, demonstrating our commitment to long-term sustainability and environmental protection.

# WHY CHOOSE US

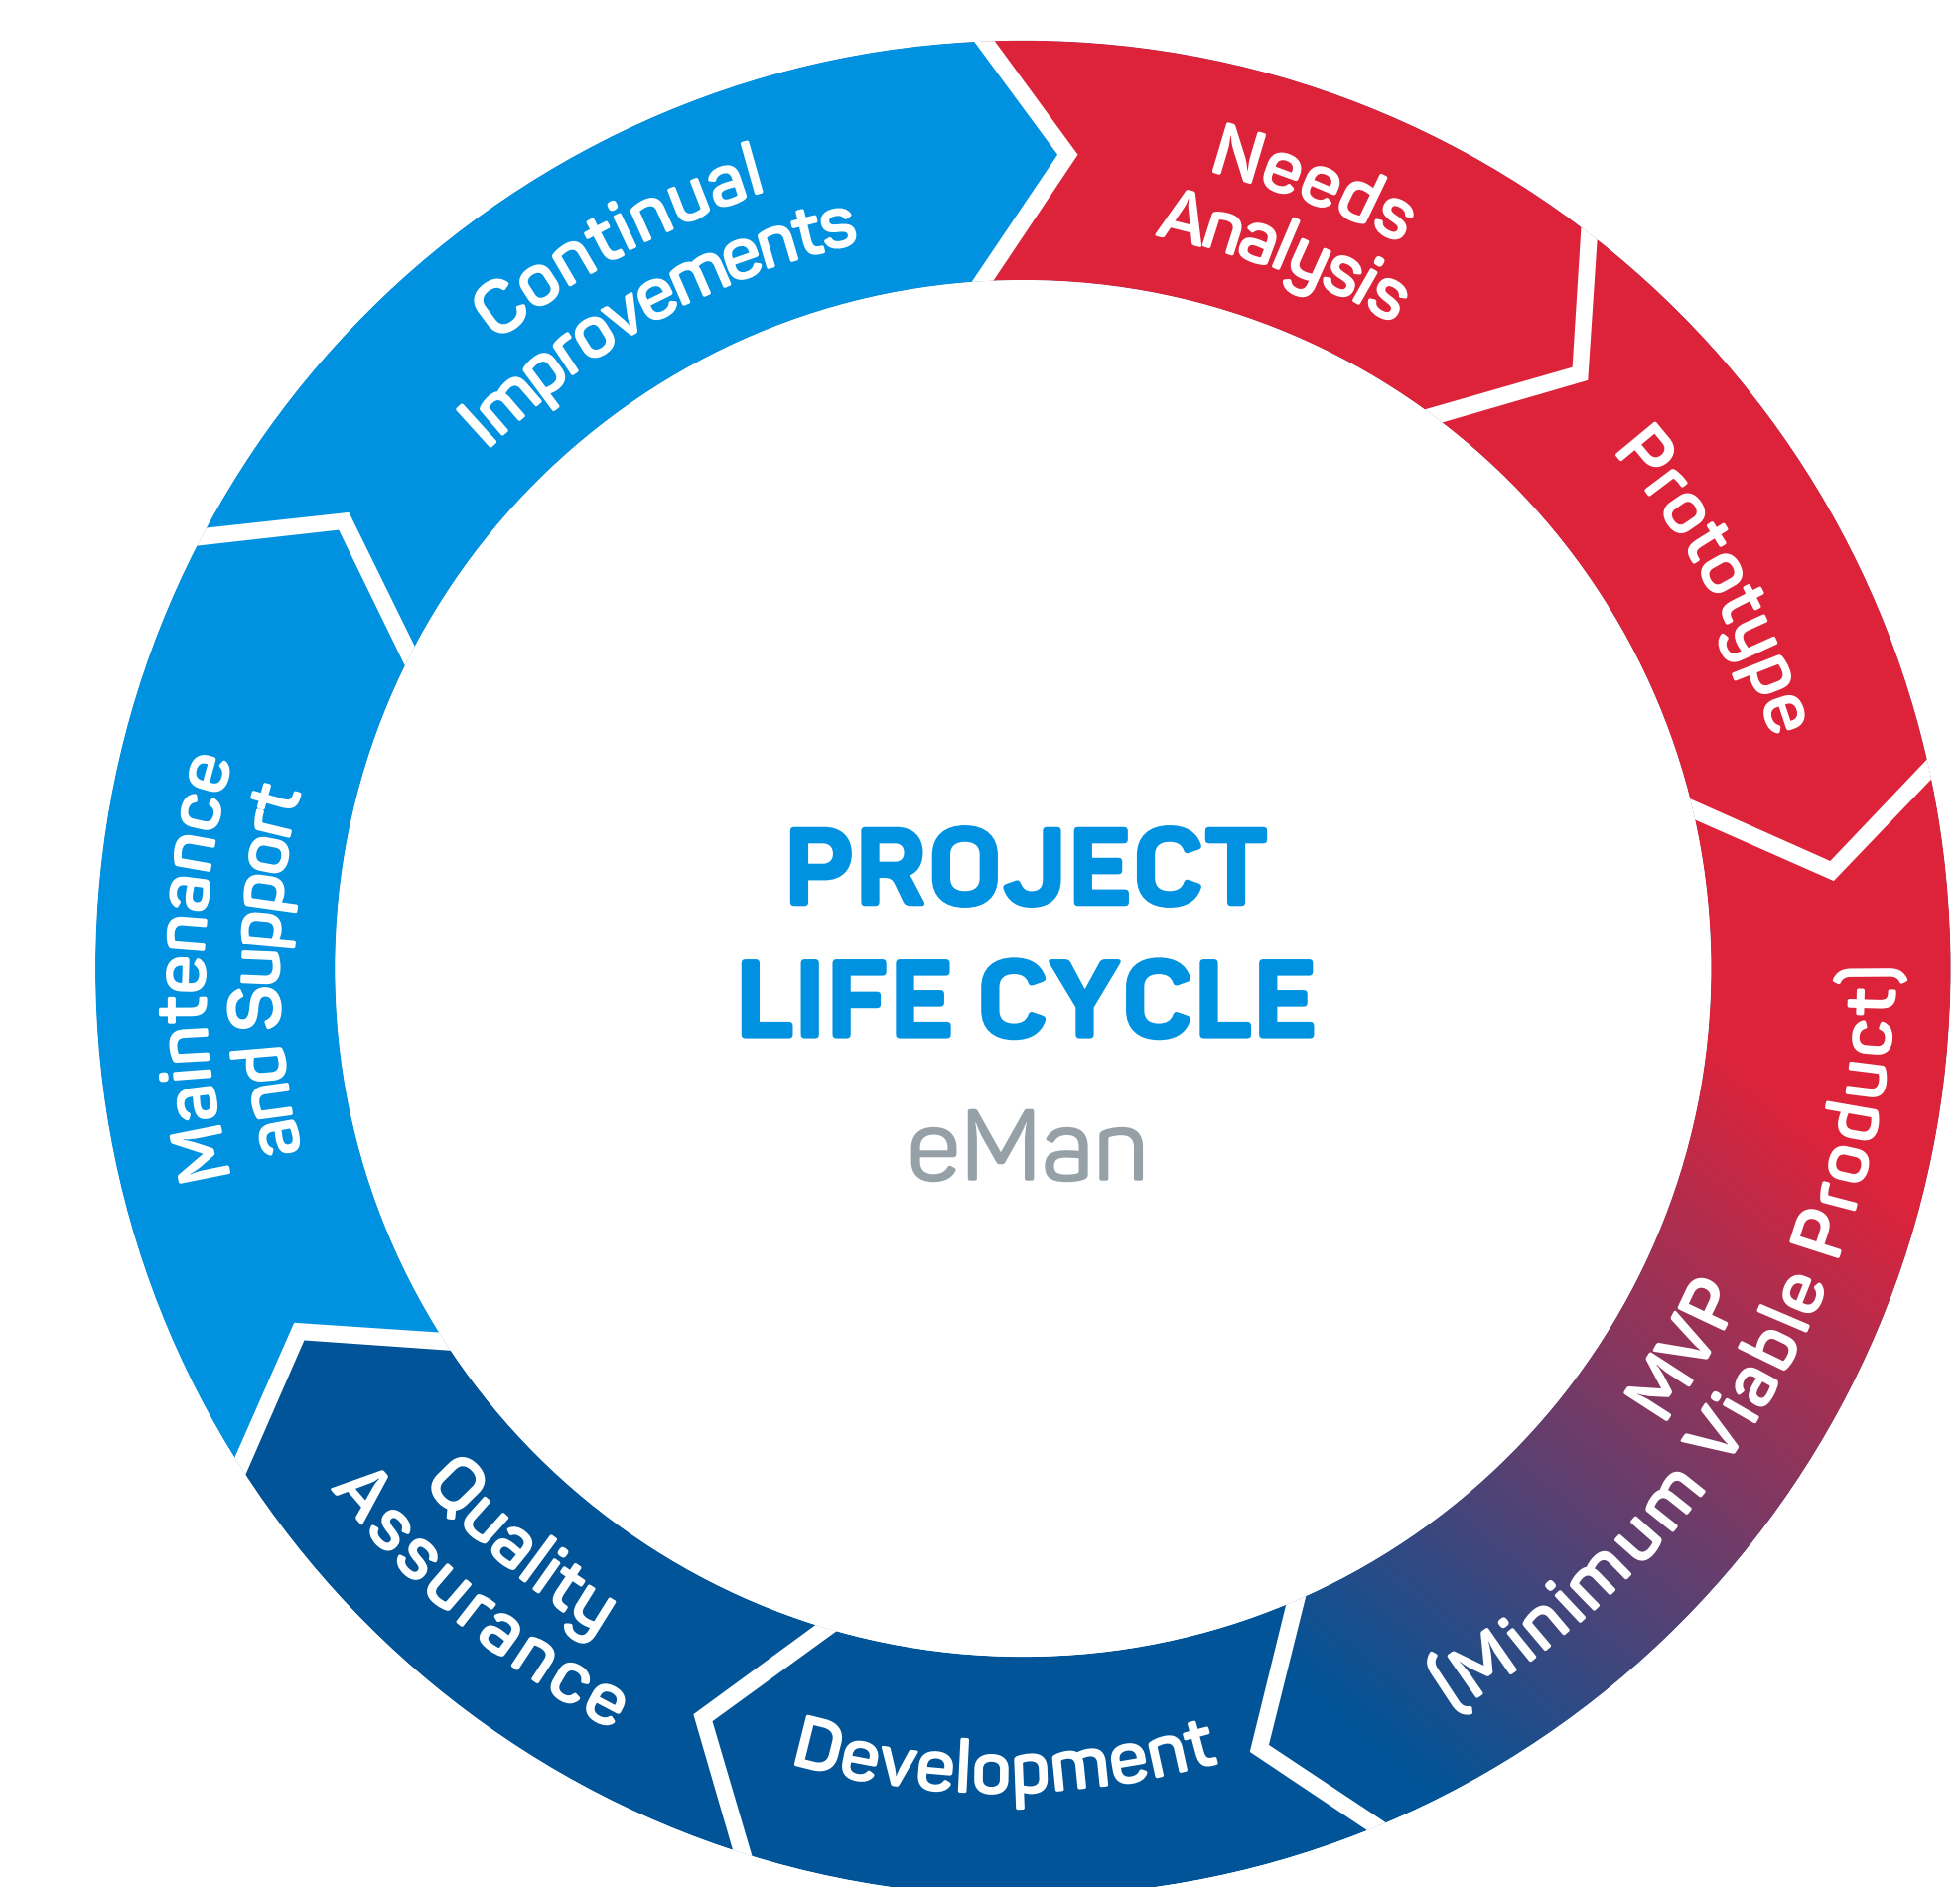

- 1. 10+ YEARS OF EXPERIENCE IN TOP PROJECTS**  
We have extensive experience from many successfully implemented projects for Czech and international clients
- 2. EXTENSIVE BRANCH KNOW-HOW**  
Deep knowledge in the areas of automotive, energy and utilities, banking, insurance, manufacturing...
- 3. COMPLETE PORTFOLIO OF SERVICES**  
Our complete services range from initial consultations and analysis, through development and testing, to service and support
- 4. MODERN AND OPEN TECHNOLOGIES**  
Using the latest available technologies, we maximize efficiency and long-term sustainability
- 5. DOZENS OF AWARDS RECEIVED**  
The quality of our work has been affirmed by the dozens of awards we have received for our solutions

# HOW WE WORK

We implement projects from A to Z. From the initial analysis, through prototyping, development and testing, to support, service and subsequent solution improvements. During all phases, we are a partner and guide for the customer in the world of digital transformation.

Support phase

Design phase

Development phase

Since 2020, our shares have been traded on the PX Start Market on the Prague Stock Exchange.

# WHAT WE OFFER

## DEVELOPMENT OF MOBILE APPS

From mobile banking to business applications to car remote control and anything in between, we develop applications for smartphones, tablets, watches, televisions, cars, and other smart devices. Our solutions include analysis, concept, UI/UX design, development, testing, and subsequent support and service. We develop for Android, iOS and other OS.

## DEVELOPMENT OF WEB APPS

From simple web applications to large-scale information systems such as customer portals or specialized solutions in industry, energy, and e-government. We provide a complete supply of solutions including analysis, concept, UI/UX design, development, testing, and subsequent support and service.

## UI/UX DESIGN

We can handle all phases of the application design process: initial analysis and data-based research, wireframing and prototyping, user testing, graphic design, motion design, and consulting. We have implemented the design of applications for websites, smartphones, tablets, smart TVs, watches, as well as displays in cars and hospital beds.

## SUPPORT AND SERVICE

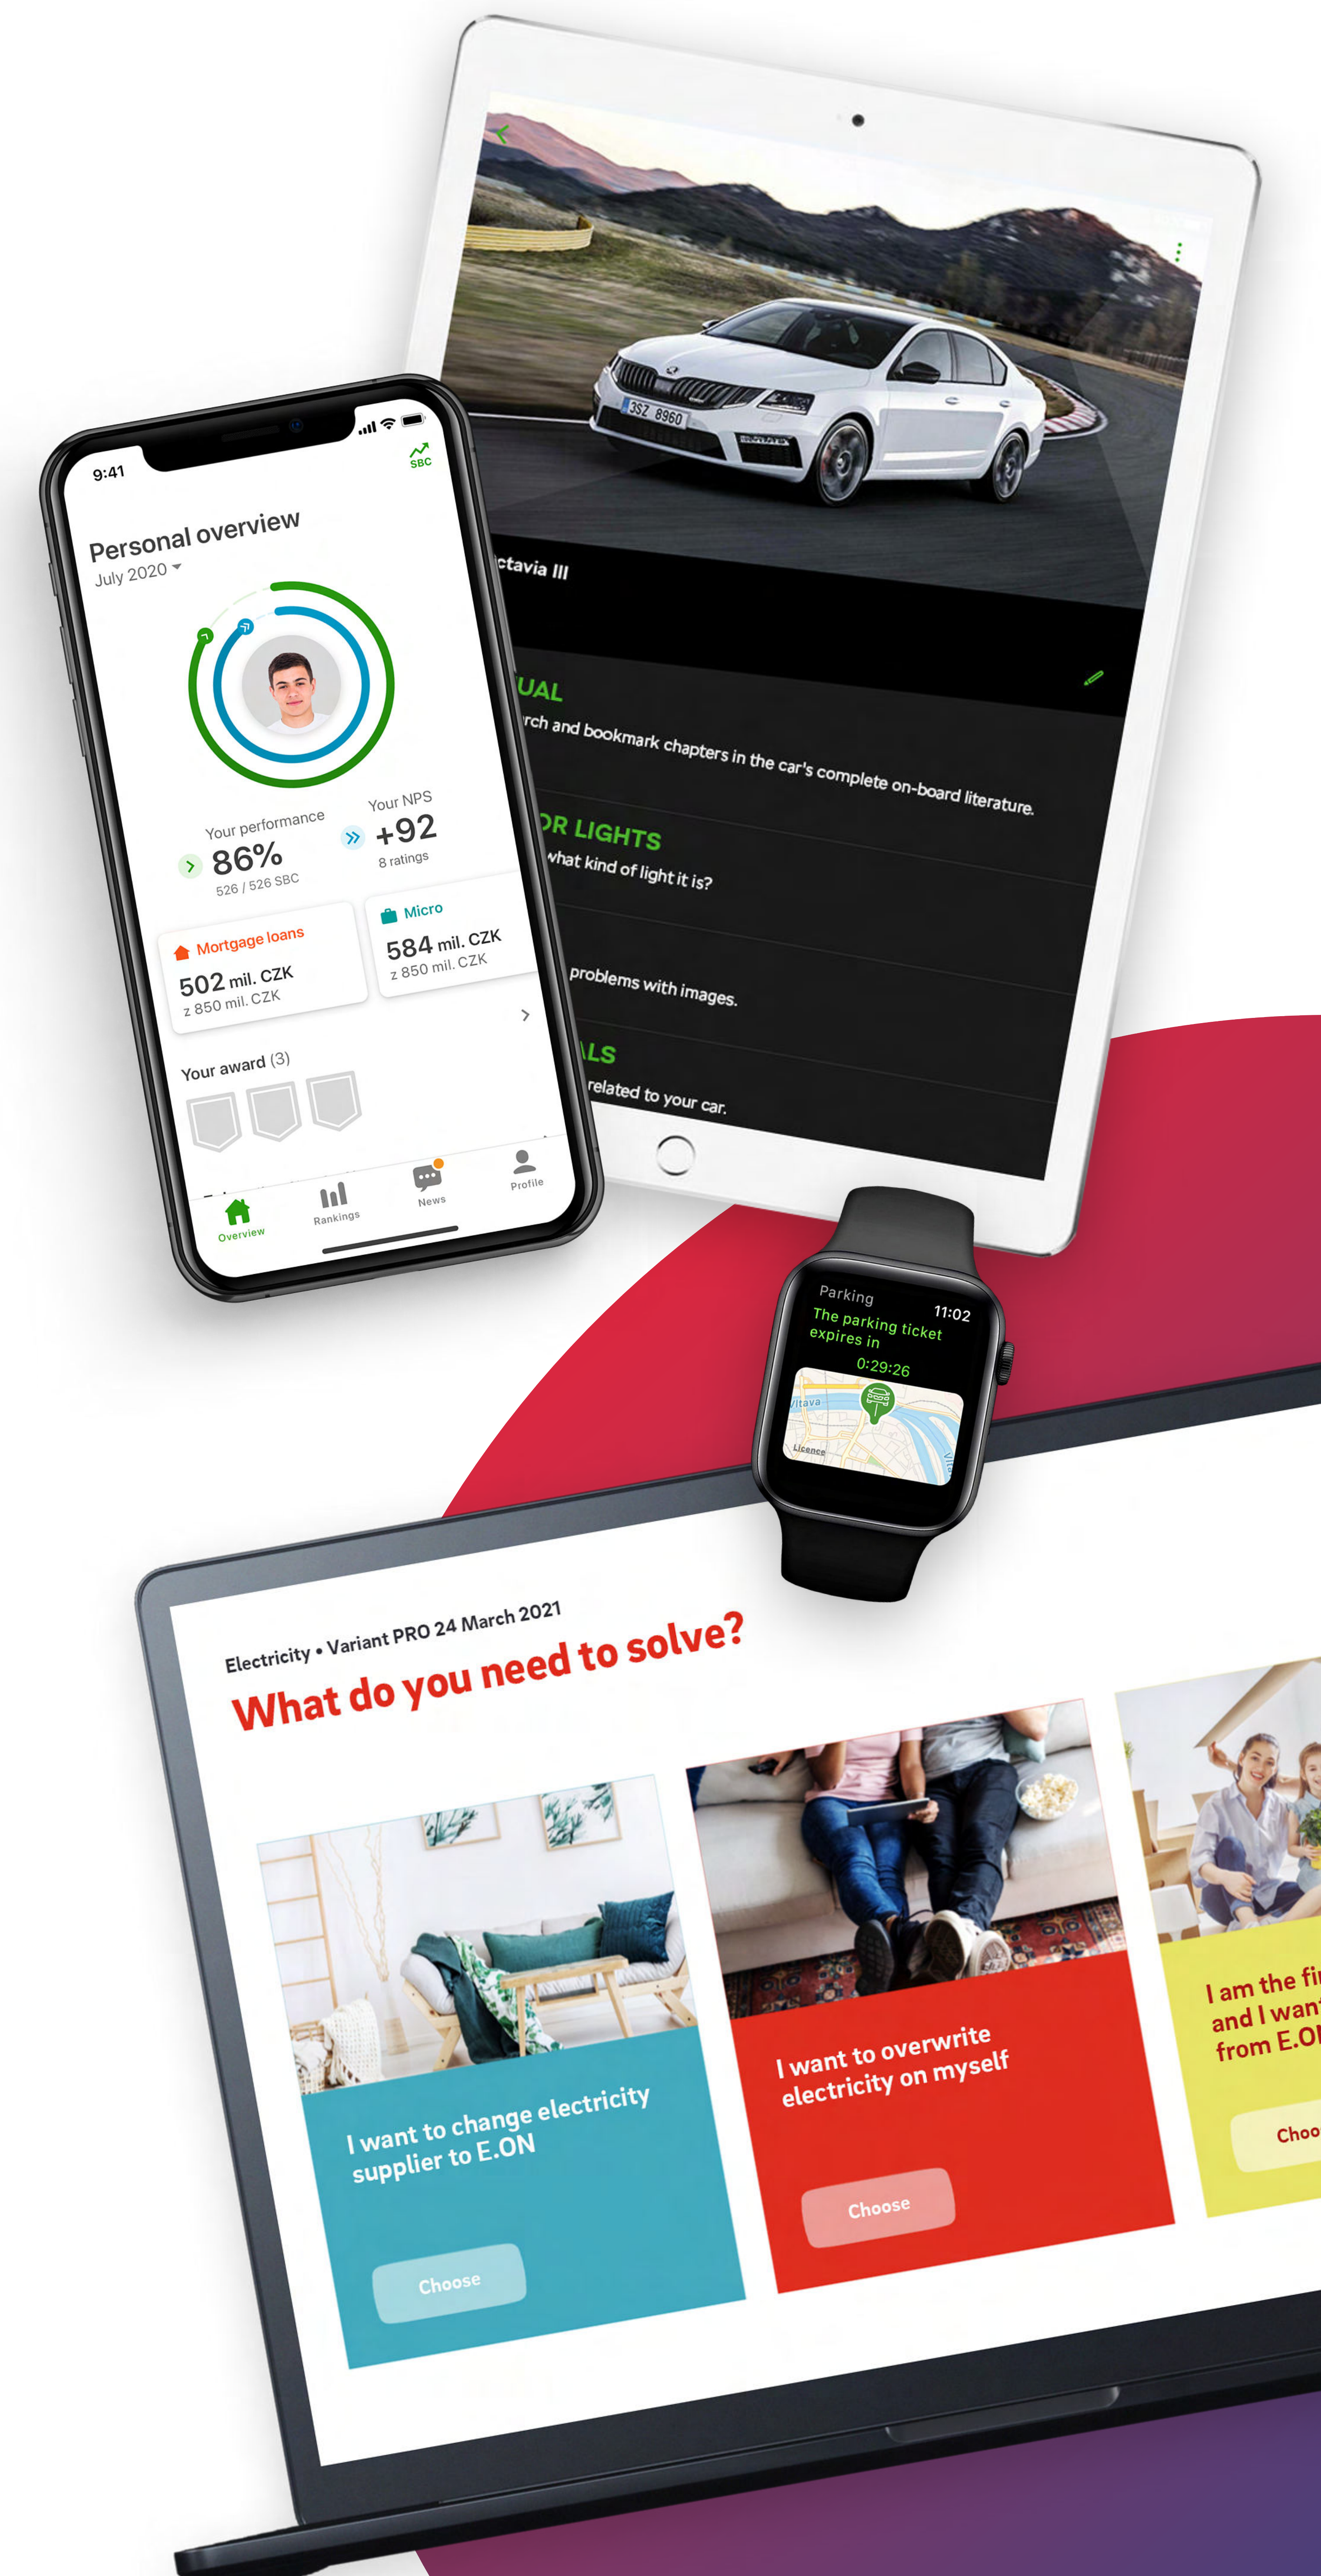

Our complete service and SLA support includes monitoring of IT systems and the availability of a team to rapidly resolve incidents. As part of the service (extended support), we offer consultation, development, and the implementation of change requests. We have experience in taking over support and further development of third-party products and services.

## OUTSOURCING IT SPECIALISTS

We supply a working capacity of IT specialists in the forms of bodyshopping and team leasing. We have software developers, analysts, testers, designers, and other roles in our portfolio, including highly specialized experts. All attached to the know-how and experience of a company with more than 10 years of history.

## CONSULTING

Our consulting services enable clients to digitize their products, services, and processes. We are looking for new opportunities, markets, and communication channels. We analyze needs, design solutions, develop prototypes, and manage testing. We determine how to integrate IT systems, the cloud, the Internet of Things, and reporting for long-term efficiency and competitiveness.

# SELECTED CUSTOMERS

“A fantastic team! When you say jump, they are already in the air.”

**CHRIS BAYARDO**

Veralink Managing Partner  
& Bayardo Safety CEO VeraLink  
Solutions, LLC

“We are really satisfied with the result of eMan's work. They determined our needs, supplemented them with functional ideas, and tailored the resulting solutions.”

**MARTIN BULÍŘ**
