Launch of the European Small and Mid-Cap Awards 2021

The 9th edition of the European Small and Mid-Cap Awards will take place in November 2021 during the European Commission's SME Week in Portorož, Slovenia.

Small and mid-cap companies are vitally important in supporting the European economy. Equity is needed to buffer exogenous shocks and will be needed more than ever following the recent crisis so that public equity capital markets can perform to the best of their ability in helping businesses refinance their growth once the situation has subsided.

Our Awards this year are even more significant as it is exactly these types of companies that will be key to re-equitising the European economy. We therefore need to recognise and congratulate them on their successes to date.

About the European Small and Mid-Cap Awards

The objective of the Awards is to promote best practices and highlight the best European Small and Mid-Sized Companies that have gained access to capital markets via an Initial Public Offering (IPO). They showcase the diversity of European markets, and aim to promote stock listings, in particular targeting SMEs and growth companies. These companies are critical to accomplishing the EU's goals of job creation, competitiveness and growth.

The European Small and Mid-Cap Awards advocate the benefits of equity financing and encourage smaller companies to consider this financing option. Equity market financing plays a key role in the creation of jobs and growth and in the overall competitiveness of a company.
